## **DEFINITION OF DEPENDENT ELIGIBILITY**

# \*\*Dependent Information.

Eligible dependents include your legal spouse and dependent children through age 25. "Children" means those individuals in the following categories who qualify as your federal tax dependents for group health plan purposes: your natural children, adopted children, children who were placed with you for adoption under the age of 19, stepchildren, foster children, and children who are to have coverage as a result of qualified medical child support order. Grandchildren (and children of dependent children) will only be considered for eligibility under the Plan if you (or your Spouse) have legal guardianship of such children, and even in that case, coverage is not automatic. If you indicate that an individual for whom you are seeking enrollment in the Plan is a stepchild, foster child, or grandchild, the Trust Office will contact you to inform you of additional eligibility requirements. Claims will not be paid until a completed enrollment form and all requested supporting documentation is received by the Trust Administration Office. In no event will claims be paid more than 12 months after the claims are incurred. If you acquire new dependents while you have coverage, a new enrollment form must be completed and submitted along with the appropriate documentation. You should complete a new enrollment form and supply an appropriate marriage or birth certificate within 30 days of your marriage, the birth of the child, or adoption or placement for adoption or as soon as reasonably practicable. Claims will not be paid until a completed enrollment form and all requested supporting documentation is received by the Trust Administration Office.
